About Us

Formed as a Refrigeration contracting company in 2014 , over extensive trust and reputed customer satisfaction, Majid Al Falasi today is growing successfully as a one stop refrigeration solution provider over a wide spectrum

We stand out as experts in the below areas

As Refrigeration consultants in the supermarket industry

Industrial Refrigeration system

- Industrial Ammonia and Commercial Refrigeration system.
- Indigenous Compressor package with GEA Compressor.
- Evaporative condenser supply and installation
- Turnkey project for all kind of process industries.

Supermarket solution

- Turnkey solution provider for the supermarket industry
- Local Assembly of turnkey systems
- Turnkey solution provider of cold-storage facilities
- Specialist in commercial and semi-industrial refrigeration
- Refrigeration service provider for Refrigeration system manufacturers

What we Do

Refrigeration Contractor

MAF-REF is primarily known as a Refrigeration Turnkey Contractor . We design the projects based on our customer requirement, from the inception stage and successfully execute followed by the after sales support

Refrigeration Specialist

MAF-REF is a trusted consultant for major role players in the MEA refrigeration industry. Thanks to the amazing trust our team has developed; that we stand as a partner of first note design advise for reputed projects in the MEA

Turnkey Sub-Contracts

MAF-REF is in contract with major European Supermarket solution providers in MEA. We support our partners taking up the responsibility as their local installation team, executing all services in specific the installation of Cabinets, central Plants, Cold-rooms , racking and after sales support

Local Assembly – Turnkey Systems

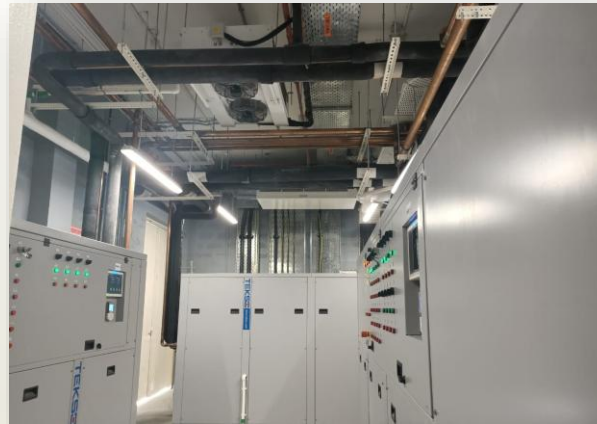

With massive On-field experience and design expertism in Refrigeration, the brainchild of Majid Al Falasi team is today a reality . We can assemble multi-compressor and turnkey systems locally at site for our customers , offering a phenomenal list of advantages

Cold-Storage Rooms

Cold-storage rooms form an integral part of the Refrigeration industry

We at MAF, are specialized on the below cold-storage formats

- Walk In Chiller cold-rooms
- Walk In Freezer cold-rooms
- Blast Chiller & Blast Freezer
- Dry storage rooms & Clean rooms
- Glass door cold-rooms
- Process rooms

All Kinds of Commercial & Industrial Cold-rooms

Local Assembly of Turnkey Industrial Ammonia Systems

We execute Indigenous GEA Compressor package - Design, Procurement , Assembly , Installation and After sales support of turnkey and Screw-compressor refrigeration systems

Completely executed locally as per the exact customer requirements

- No Huge Logistic costs
- Optimized design (Required Application X Energy ratio improvement)
- Flexibility on equipment footing at the site
- Cost optimization + improved CAPEX
- Effective execution time

Supermarket Solutions

We are specialized in design , supply and installation of refrigerated display cabinets for different store formats

- Our expertise lies in the optimization of design and expert installation protocols followed - making us stand out as a trusted partner to the investors in retail segment

Local Assembly of Turnkey Freon Systems

We execute Design, Procurement , Assembly , Installation and After sales support of turnkey and Multi-compressor type refrigeration systems

Completely executed locally as per the exact customer requirements

- No Huge Logistic costs
- Optimized design (Required Application X Energy ratio improvement)
- Flexibility on equipment footing at site
- Cost optimization + improved CAPEX
- Effective execution time

Refrigeration Solutions

Our Expert team and dedicated techniques is winning us a reputed position as a refrigeration equipment solution provider

Experts in Unitary systems & Multi-compressor power racks

Flake ice Machine / Block ice machine

- **Flake ice Machine** : Supply and installation of flake ice machine 0.3MT to 15MT /Day (from ICESTA- India) refrigeration design and build in UAE by MAF
- **Block ice Machine** : Supply and installation of Block ice machine (1.0MT to 60MT), design and build in UAE, ICE Tank and accessories, refrigeration system design and build in UAE by MAF

Evaporative and Aircooled Condenser

We are a leading engineering solutions provider specializing in **high-performance evaporative condensers and air-cooled condensers** for commercial, industrial, and refrigeration applications. With a strong focus on reliability, energy efficiency, and long-term operational performance, we deliver systems engineered to meet the demanding climatic conditions of the Middle East and global markets.

Our expertise covers **design, supply, installation, commissioning, and maintenance** of condenser systems tailored for supermarkets, cold stores, food processing plants, HVAC systems, and industrial refrigeration facilities.

Valve and controls -

We supply a complete range of **industrial and commercial refrigeration valves, controls, and safety components** from globally trusted brands **Danfoss** and **Hanson**.
